- 11 Anti Fire Suit
- 12 Anti Riot Cut-Resistant Gloves
- 13 Anti Riot Helmet with Visor and Neck Protector
- 14 Dahra Ballistic Level IIIA Riot Helmet with Visor
- 15 Anti Riot Telescoping Baton
- 16 Anti Riot Stun Baton
- 17 Anti Riot Tonfa Baton
- 18 Taser Electric Pistol
- 19 Anti Riot Gas Mask with Communication System
- 21 Steel Anti Riot Mobile Barrier

**Our experienced team created the ultimate line of anti riot equipment**

## Anti Riot Shield

Part: DLM-ARS-001

A hand held body shield with functional features. Ergonomic handle allows 2 handed use for extreme circumstances. The handle and break-away strap are dielectric to prevent electrical pass through and can be reversed for left or right hand use. The wide nylon arm strap is easily adjustable while in use. The shield has superior optical quality and workmanship. Dahra Anti-Riot Shield is a V-50 “Frag” rated body shield.

### Specifications

- When you need maximum protection in a riot situation
- Made of heavy duty 6.35mm thick polycarbonate
- ergonomic handle which allows one or two handed use
- handle and breakaway strap are dielectric to prevent electrical pass through and can be reversed for right or left handed use
- wide nylon arm strap is easily adjustable while in use
- USA military spec V-50 rated
- 122cm High x 61cm Wide; 6.5 kgs

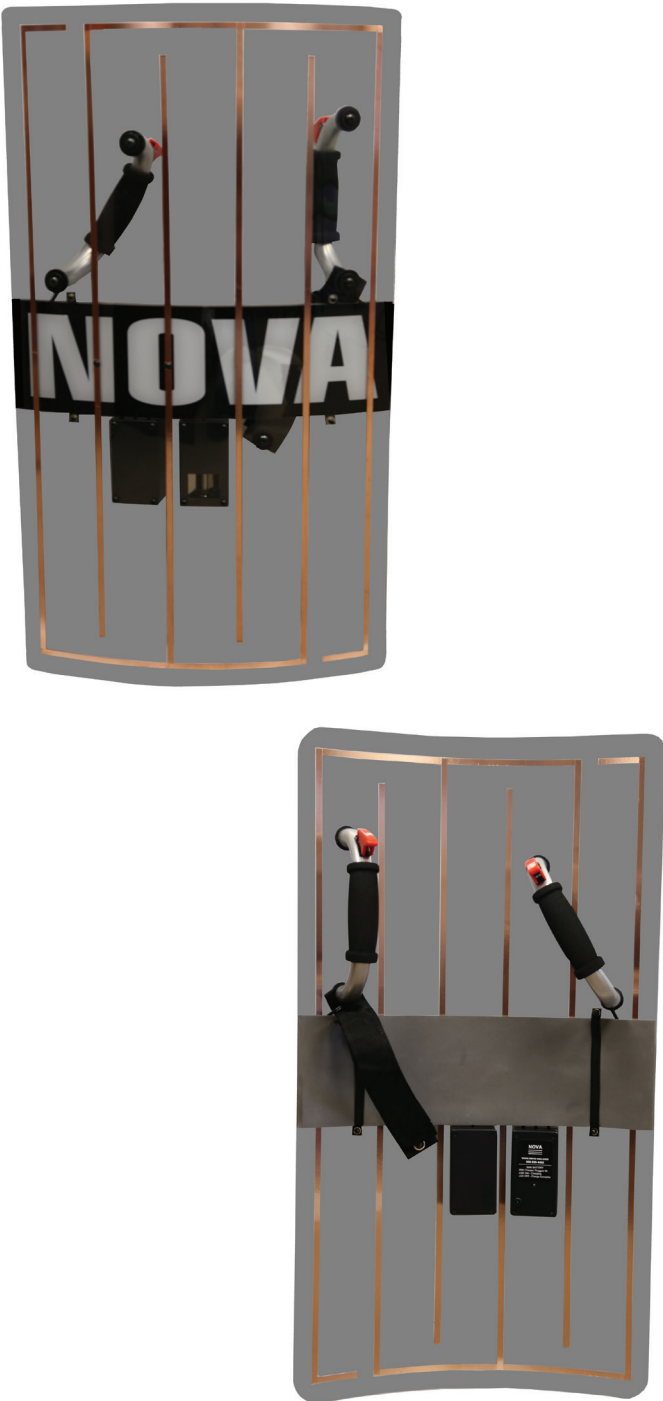

## Dahra Electric Anti-Riot Shield

Part: DLM-EARS-213

The primary use of the electronic ant-riot shield is to protect users in riot situations. The Dahra Electric Anti-Riot Shield can be used in a “wall” configuration to protect user during public riots. Also excellent for isolating a rioter from a crowd where user may be subject to attack from rioters. Resolves some conflicts through intimidation, avoiding physical confrontation. 20 years of successful use in crowd control and anti-riot use.

### Specifications

- Thickness of shield is 5.5mm.  
Width: 60cm and Height: 120cm
- Durable, light-weight, high-impact polycarbonate material
- Durable, easy “on-off” rocker switch activation with switch safety cover
- Proven XR-5000 electronic restraint technology
- Rechargeable or Lithium battery, sufficient for approximately 300 activations
- Two sturdy aluminum handles with rubberized comfort grips
- Optional battery status indicator
- Optional key switch to turn power off and on
- Optional disconnect tether
- Rugged and durable construction
- Custom name plates made to customers specifications
- Made in the USA

## Dahra Anti Riot Hydration System

Part: DLM-ARH-686 / Black

Made from 1000 Denier Nylon Construction, with adjustable web shoulder straps. Featuring adjustable quick release sternum strap. Includes a 2.5-L Water Bladder w/Insulated Drinking Straw. Attached D-Rings to hang extra gear. Integrated drain hole and carrying handle.

### Specifications

- 46cm long x 19cm wide

## Dahra Anti-Bullet Chest Vest

Part: DLM-BCV-980

The ultimate in plate carrier performance, featuring modular web attachment points on the entire vest providing maximum versatility. Front, back and side plate compatible. Quick release tabs for quick front and back plate removal and it has concealable rear adjustment side panels made with elastic for ease of movement. It has padded shoulder straps with additional removable wrap around pads for extra comfort and support. Also featuring wire, antenna, hydration hose guides, a reinforced drag handle the Dahra Anti-Bullet Chest Vest is highly versatile.

### Specifications

- 500 denier Dupont Cordura
- Bar-tacked stress points and MODULAR webbing
- MIL-Spec stitching standards, type E thread
- Overall size: 39cm long x 34cm wide
- Weight: 1.4kgs

**Modular Web Attachment Points** — Maximum Versatility.

**Elastic Side Panels** — Rear adjustment for comfort and ease of movement.

## Dahra Anti Riot Boots

Part: DLM-RBT-443

Dahra Anti Riot Boots feature moisture wicking Dri-Lex lining and stretch lycra tongues that hug feet for Secure Fit. Flash and water-Resistant leather uppers withstand fire hazards and rigors of Sea-to-Land warfare and anti-riot duties.

### Specifications

- Drainage vents move water out and prevent debris from entering and enhance breathability
- Made in the USA, Berry Compliant
- Proprietary High-Walled Vibram Soles with perforated airport cushion footbeds and midsoles
- SuperFabric instep panels prevent early boot failure from work fatigue
- 1,000 Denier Cordura in sides and panels in treated PTFE coat for flame resistance
- Aegis Microbe Shield prevents bacteria and fungus growth, the cause rot and foot discomfort

Dahra Anti Riot Suit

Dahra Anti Riot Arm and Leg Protector

We continue to expand our leadership position by offering the industry’s most extensive range of top-quality products

Specifications

**Dahra Anti Riot Suit** protects chest, shoulder, back, thigh, groin and pelvis. Composed of 2 layers: outer hard polycarbonate plastic plates both at the front and back, plus shock-absorbing layer. Outer front and back plates are of hard polycarbonate plastic providing extensive protection and resistance to the external violence. These plates are easily attachable (and detachable) with the suit. Front plate is anatomically curved to provide maximum protection to chest & abdomen. Shock absorbing padded layer made of two materials, thermopole & eva foam. Eva foam is firmly glued on both sides of thermo-pole and stretchable Lycra fabric is pasted on outer side of this layer. Its thickness is 15 - 17 mm. This layer is distributed with shaped pads, which provides easy mobility.

**Dahra Anti Riot Arm Protectors** covers biceps, forearm and elbow: Biceps protector is composed of hard polycarbonate shell with adjusted eva rubber on inner, which is covered with polyester lining. Elbow and forearm protector is also composed of the same composition of biceps protector. Both protectors are joined with adjustable plastic hook & web strap. Both protectors are provided with elastic straps with Velcro to attach firmly with the arm.

**Dahra Anti Riot Leg Protectors** cover the knee, shin and front ankle. Made of hard polycarbonate plastic. Internally stitched eva foam with polyester mesh, elastic straps with Velcro to perfect fit, detachable and adjustable protector for ankle joint and foot roof.

# Dahra Anti Riot Fire Suit

Part: DLM-RFS-707

The new standard for hot-weather anti riot and combat gear. A progressive design incorporates feedback from thousands of soldiers in some of the world’s most unforgiving environments. Innovative FR fabrics are lightweight, breathable, and highly wicking. With four-way stretch, a performance fit, and uncompromising FR construction, this is engineered for FR protection and exceptional comfort under armor.

## Specifications

- Full flame-resistant construction with proprietary Massif fabrics
- Lightweight, ultra-breathable and wicking torso fabric
- Durable, breathable sleeve fabric
- 4-way-stretch fabrics
- Flat seam construction minimizes chafing
- Low-profile, zippered shoulder pockets
- Concealable IR tab
- Lightweight elbow pads & knee pads with abrasion-resistant SuperFabric® technology
- Pen pocket on left forearm
- Seamless side-panel construction increases comfort under armor
- Velcro loop for name, rank, flag, and unit tape
- Wrist cuffs adjust for a customizable fit
- Machine washable

# Dahra Anti Riot Cut-Resistant Gloves

Part: DLM-ARG-289

Dahra Anti Riot Cut-Resistant Gloves are made from fire-block leather. This specially engineered and treated leather combines flame retardant properties with resistance to abrasion, oils and water based stains. Dupont Nomex fiber lining provides the ultimate combination of comfort and flash resistance. Dupont Kevlar outer shell combines high break strength with cut, abrasion and tear-resistance. Featuring ABS shock absorbing nylon knuckle protectors for superior impact and abrasion resistance. With digital laser-etched palm pads for better grip and shock absorption. These gloves feature a curved construction and seamless palm for unparalleled fit and feel. Fully machine washable and highly durable for long life.

## Cut Resistant

Engineered and treated leather is highly durable and flame retardant.

## Palm Pads

Laser-etched for better grip and shock absorption.

## Knuckle Protection

ABS shock absorbing nylon for superior impact and abraision resistance.

Dahra Anti Riot Helmet with Visor and Neck Protector

Part: DLM-HVN-002 / Small  
DLM-HVN-003 / Medium  
DLM-HVN-004 / Large

SHELL

The half-coverage shell is constructed of Arimid Fiber Reinforced Thermoplastic composite utilizing high-pressure compression molding for increased strength while maintaining a lightweight helmet. The visor is an integral part of the shell. The shell edge is finished with a tough molded trim and painted with a scratch resistant flat black paint. The 19mm shell liner is constructed of energy absorbing expanded polystyrene (EPS) in all impact areas. The EPS liner is covered by a vented brushed nylon material that is bonded to multi-density foam for comfort and durability. This material will provide maximum wicking of perspiration away from the user’s head to allow for utmost cooling to the wearer. The helmet retention system has a four-point “Y” harness including a chin strap that is made of black tubular nylon webbing double bar tacked in critical areas covered with perspiration resistant vinyl. The harness is equipped with a Quick Release Buckle with all metal working parts for secure

VISOR

Helmet is supplied with a 16cm full-flip polycarbonate face shield. The visor is 3.175mm thick, with a clear, optical grade finish. The liquid seal is molded TPE material, black and semi-rigid. The liquid seal is affixed to prevent passage of liquids from the helmet dome or face shield into the inner shield surface when the shield is in down position.

TACTICAL NECK PROTECTOR

The tactical neck protector is constructed of ridged high-impact ABS outer material lined with 6.35mm shock absorbing vinyl inner padding, which is permanently attached. The neck protector is pierced in the ear area in order to provide the wearer with adequate means of hearing. Includes a Nape Pad that gives extended coverage to the cervical area of the neck.

STANDARDS

Meets and exceeds US National Institute of Justice 0104.02 (riot), 0105.01 (crash) requirements/ standards and Department of Transportation FMVSS-218 (impact) Weight: 1 kg

Dahra Ballistic Level IIIA Riot Helmet with Visor

Part: DLM-BRH-122 / Small  
DLM-BRH-123 / Medium  
DLM-BRH-124 / Large

SHELL

The shell is manufactured utilizing advanced Thermoplastic Aramid and Glass Fabric Composites, raising the level of protection while reducing the weight to 1kg. It is built with similar dimensions to the U.S. military PASGT style helmet, with an integrated visor and flared sides accepting double canister gas masks, communications, and goggles. The shell’s edge is finished with extruded neoprene rubber trim and the entire outer surface is protected with a scratch resistant flat paint. The retention system is built of tubular poly webbing reinforced with double bar tacked stitching in critical areas. The entire retention system is attached to the shell with a sturdy four-point flush bolt system, and includes a comfortable chin cup.

Dahra Ballistic Level IIIA Helmet has been tested to the NIJ 0106.01 Ballistic for penetration.

BALLISTIC VISOR

The ballistic visor is laminated with PMMA and polycarbonate with proprietary TPU interlayer, designed to offer entire facial protection from the helmet rim to below the chin area, against multiple hits from ballistic threats, as well as fragmentation and blunt impact. It can be quickly attached or detached to most ballistic helmets. The visor can be locked into 3 positions including fully elevated, 45 degree, and deployed.

Protection Level: NIJ Level IIIA Multiple Shots  
Ballistic Impact: 44 Magnum at 420 m/s –  
9mm FMJ at 420 m/s –  
7.62x25mm Tokarev at 380m/s  
Fragmentation: Stanag 2920 – V50 = 790 m/s  
Glass Thickness: 22mm

## Dahra Anti Riot Telescoping Baton

Part: DLM-RTB-222

Designed for the security professional, the Sentry's distinctive Strike Force® grip is complemented by 4130 steel shaft, carbon steel tip and a black nickel finish. The 60 durometer Santoprene handle of the Sentry Baton provides a firm grip under the most adverse conditions.

ASP Tactical Batons are the most tactically sophisticated impact weapon currently available to law enforcement personnel. Tested by the most elite federal teams, the ASP Baton has proven itself “virtually indestructible.” ASP Batons can offer a powerful psychological deterrence and physical control. Premium materials, exceptional workmanship and flawless function of the ASP Baton sets it apart from others in quality, durability, and performance.

Made in USA

### Specifications

- Specifications: Model: S21
- Steel Alloy: 4130
- Length Expanded: 66cm
- Weight: (462 grams)
- Diameter: (25.4 mm)
- Locking System: Friction Loc
- Type of Tubing: DOM
- Finish: Black Chrome
- Hardness: 40-45 RC
- Tensile Strength: 201,000 PSI
- Grip Material: Santoprene
- Grip Undercoat: Zinc
- Cap: Aluminum
- Cap Finish: E-Coat
- Washer: Polymer
- Warranty: 5 Year

## Dahra Stun Baton

Part: DLM-SB-4096

The world's first combination of metal baton, tactical-flashlight and concealed electric stun baton. Dahra Stun baton is engineered in a type III aircraft aluminum body. With a firm rubberized grip handle, the 47cm heavy duty clubber is also an emergency glass breaker. With a quick slide, this Stun Baton shines a blinding 260 lumen flashlight and emergency strobe. The front end boasts exclusive concealed stun technology; firing off a thunderous 7,500,000 stun. With no visible probes, the stuns emit a loud electrifying shock with the push of a button. The shockproof body allows for durability and longevity while the car and wall chargers permit flexibility in recharging capabilities.

### Specifications

- 260 lumen tactlcal flashlight w/ 3 light functnons: High: 260 lumens - Low: 90 lumens - Emergency strobe: 260 lumens
- 7,500,000 stun gun
- All metal baton made of type III aluminum alloy
- Glow in the dark push button; instant on/off safety switch tail push button
- Rechargeable battery
- Includes wall charger and car charger
- Includes belt clip
- U.S. patent pending
- Lifetime Warranty

## Dahra Anti Riot Tonfa Baton

Part: DLM-ATB-300

Dahra's Tonfa offers superior performance and maximum utility in adverse conditions. The straight handle features grooves for a better grip.

### Specifications

- 61cm Nylon Fiberglass Baton With Rubber Grip
- 3.175cm Diameter
- Lightweight Nylon Fiberglass
- Rubber Grip Handle
- Lifetime guarantee

## Dahra Taser Electric Pistol

Part: DLM-TEP-262

In cooperation with the best made electric pistols, Dahra Logistics & Marketing presents the worlds best Electric Pistol. Dahra's pistol features an all-digital, solid-state architecture that measures and adjusts the charge output to the optimal level. This smart electric pistol logs and records every user action such as: safety activation, trigger duration with times, dates, battery life, and a pulse-by-pulse record of the charge output. Featuring an Automatic Shut- Down Performance Power Magazine.

### Specifications

- Compact size
- Self diagnostics
- Weather resistant
- Charge metering
- Audible warning
- Internet updateable
- Flashlight
- Ambidextrous safety switch
- Battery indicator

## Dahra Anti Riot Gas Mask with Communications

Part: DLM-GMC-9094 / Small  
DLM-GMC-9095 / Medium  
DLM-GMC-9096 / Large

Dahra presents a revolutionary multi-role Respiratory Protective Equipment (RPE) System. It has been developed specifically for specialist applications where the user needs to respond to ever changing operational conditions. The mask is globally acclaimed as the most technically advanced mask and offers both positive-pressure SCBA, PAPR and negative pressure APR/capability. All of these capabilities are available from one mask platform without the need to change components. Available in right, left or twin port filter configurations. The mask was developed to address the multiple threats encountered on the modern battlefield, anti-riot operations, war on terrorism and peacekeeping scenarios. It provides protection against traditional chemical and biological warfare agents and toxic industrial materials.

### Set includes:

- Gas mask
- CBRN filter
- Mask pouch
- Clear outsert lens
- Voice projection unit w/microphone assembly
- CE and NIOSH Certified

## Defence | Security | Aerospace

Our Core area of business focusses on defence services and include procurement and Sale of Equipment, Systems, Spares, After sales support, Total Supply Chain Management & Support, for Land forces, Marine sector, Special Task forces, Coast Guard, Police Forces etc.

Among other things have customized solutions for our defence clients for:

- Armoured / EOD vehicles
- Medical Shelters
- Fire Vehicle
- Special Vehicles
- Mobile Ops Room
- Night Vision Goggles
- CBRNE Equipment
- RIBS / Boats
- Fender
- Lifejacket
- Radar / Sonar
- Workshop Equipment
- Maintenance / Upgrade & After Sales Support

### Training

Dahra Logistics & Marketing working exclusively with T1G Training Group offers comprehensive Anti-Riot training as outlined below: Crowd Control & Anti-Riot Training - Course Subjects: The following subjects are covered but by no means restricted to on our Crowd Control & Anti-Riot Training Course. For a FULL list of subjects that may be included, simply request our Course Fact Sheet. See below for the main areas covered as standard:

- Crowd Development / Civil Unrest
- Civil Disturbance Planning Considerations
- Legal Considerations
- Crowd Types / Tactics
- Anti-Crowd Control Tactics
- Non-Lethal Force Procedures
- Crowd Dispersal Techniques & Equipment
- Riot Control Team Techniques
- Crowd Control Formations and Safety issues
- Pre planning and Location Analysis
- Urban Terrain Analysis
- Scalable Effects / Use of Force Spiral
- Communication Procedures

# Dahra Steel Anti Riot Mobile Barrier

Part: DLM-RMB-500

Engineered to give head-to-toe protection and deploy faster than standard fencing or plastic barriers, the Dahra Anti Riot Mobile Barrier creates up to 13.5m wide x 3.1m high full-protection blockade that can be deployed directly from the trailer that transports it. The mobile barrier allows anti riot teams to free up cars and officers, conserving labor costs and equipment whenever emergencies or events need crowd control. It's the perfect first line of defense for tactical anti riot teams, police, sheriffs, emergency responders. For rapid response it deploys in just 2 minutes. Transport it, unfold it and begin crowd immediately. This mobile barrier is engineered to give immediate head-to-toe protection, with minimal set-up effort.

## Special Features

- No large gaps or holes
- Anti-scaling devices fold out
- Join multiple units to increase barrier width
- Viewing windows for crowd control
- Solid barrier shell for rigidity and durability

## Experience and Expertise

Dahra Logistics & Marketing LLC is one of the few Omani companies in this sector of business having an international reach.

Experience and expertise developed over the years, plus the professional background of our management and staff give us a unique understanding of defence and security matters.
